OBJECTIVE

Motivated undergraduate student in Electronics, Communication and Information Engineering with strong skills in electronics and programming. Interested in contributing to SRDC research projects through technical problem-solving, documentation, and innovation in applied electronics.

SKILLS & ABILITIES

- **Programming Languages:** JavaScript, C++ (OOP), C, Java, Python.
- **Web Development:** HTML, CSS, Tailwind, React.js, Node.js, Express.js, socket.io, MongoDB, Three.js.
- **Electronics:** Basic Circuit Analysis, Adruino Programming and Sensor Interfacing.
- **Graphic & Design:** Photoshop, Canva.
- **Version Control:** Git, GitHub.

EDUCATION

2024 - Present	**Bachelor in Electronics, Communication and Information Engineering** Sagarmatha Engineering College *(IOE)*
2021 - 2023	**Higher School [+2] (3.77 GPA)** Viswa Niketan Higher Secondary School
2008 – 2021	**Secondary School [SEE] (3.90 GPA)** Adarsha Yog-Hari Secondary School

PROJECTS

Live Chat Application *[livechat.riman.com.np]*

- Built a full-stack real-time chat web application using Node.js, Express.js, and MongoDB with Socket.io for live communication.
- Designed user authentication flow and real-time message updates for seamless interaction.

Interactive Art Gallery *[artgallery.pratishtha.com.np]*

- Developed a 3D virtual art gallery using Three.js, enabling immersive navigation and interaction with digital artworks.
- Implemented smooth user controls for engaging visual exploration.

ACTIVITIES/ ACHIEVEMENTS

- ***Best Thematic Project Winner*, Hardware Hackathon**
  Taranga: The Wave of Technology 2026 – Purwanchal Campus (ERC), Dharan.
- Participated in ***KEC* Software Hackathon 2025**
